Leisuwash DG HP Touchless Car Wash Equipment

Overview

Hangzhou Leisu Cleaning Equipment Co., Ltd. is a national high-tech enterprise specialized in research and development of automatic car wash equipment. Leisuwash constantly changes its thinking and making the designed products more professional. Innovation is the source of a product's persistence and an important guarantee for an enterprise to flourish and prosper. In past seven years, Leisuwash has continuously transformed customer needs into technological innovations on car wash machines. These innovative designs not only bring more excellent cleaning result, and also help car wash owners increase revenue.

Leisuwash DG Touchless Car Wash

Key Features

1. Contour-following high pressure rinse.
2. Contour-following air dryer.
3. Contour-following chemical application.
4. Bi-directional rotational wheel scrubbing.
5. High pressure swing side rinse. (optional)
6. Frequency conversion silent air dryer. (optional)

Functions

1. Contour-following chemical application and high pressure wash.

Washing without brushes poses a special challenge for a car wash. Leisuwash DG equipped a multi-stage chemical and high-pressure system. Automatically detect various types of vehicles and working with 35cm flushing distance and 100bar flushing pressure. A multi-stage applicator is used to apply different chemicals and therefore loosens a high amount of dirt. Contour-following and lateral high pressure ensure that the vehicle surface is cleaned thoroughly after the dirt has been loosened. We don't need to worry about any damage to the car paint, because during the cleaning process, except the cleaning fluid and high-pressure water, there is no brush contact with vehicle body.

Contouring following high pressure rinse and chemical applicator

2. Contour-following air dryer with side air dryer

Following the Leisuwash philosophy there is no great car wash without a great drying system. Leisuwash DG flow-optimized drying system provide contour-following air drying with accurately drying distance at 25cm. By optimizing the main body of the blower, the air flow loss is effectively reduced, with 16 kW of power, the premium dryer for DG ensures that cars are dry and customers are satisfied. Optional SILENT-drying system can reduce 35% noise and energy consumption, and suit to more application places.

Contour-following air dryer with side air dryer

3. Bi-directional rotational wheel scrubbing.

Leisuwash DG also provides customers with more humanized design concepts. Customers can easily experience the uniqueness of Leisuwash DG through these innovative features.

One of the most difficult areas of vehicles to clean are the wheels, Leisuwash DG takes tire scrubbing to a new level. During the process, each tire receives a chemical application and the wheel receives an intense bi-directional rotational scrubbing, combined with high-pressure water flow. There are multiple cleaning technologies in play to meet even the most demanding consumer needs.

Bi-directional rotational wheel scrubbing

4. **Overflow lave foam with spot free RO water rinse**

Leisuwash DG also provide more value-added functions, such as overflow lava foam, the light show will attract drivers off street and into your wash bay. Soft wax coating makes every car wash becomes a car care and maintenance, and surely will bring more return customers for you.

Lava foam with spot free rinse

5. Leisuwash DG 24 hours Self-Service Online Paying

Through the online payment with voice guidance system can achieve 24-hours self service car wash. In China people use WeChat or Alipay online paying, overseas customers can adopt local payment system work together with Leisuwash systems.

Leisuwash 24H self service payment

Leisuwash DG high quality components from worldwide leading companies.

Intelligent Contour-Following Touch Free Car Wash
High quality 3 years warranty

Details show our professional
Our suppliers are from leading companies in the world, reliable technology and quality are the guarantee of your trust!

LEISUWASH DG

German Igus cable

German Igus towline

American SPRAY high-pressure nozzle

American Parker high pressure pipe

Taiwan Muji High Pressure Pump

All achieve IP67 waterproof
All lifting, rotating, walking and air-drying motors and reducers are Italy brand. Long lifetime in harsh washing environment

Leisuwash DG high quality components

German Siemens inverter

German P-F sensor

Italy MEGADYNE timing belt

Japan NSK transmission bearings

Taiwan Delta PLC

French Schneider Low-Voltage Appliance

German Siemens Motors

Leisuwash High Quality
Even a small screw, spring washer, flat washer, key pin, snap ring etc are all made of 304 stainless steel.

Leisuwash DG high quality spare parts

LEISUWASH PREMIEM QUALITY

The excellent production process is the basis for ensuring the long life of the equipment. Each component is made after repeated testing and careful design in the laboratory. Each component has excellent quality and good performance.

Sheet Metal Whole Bending
The sheet metal of the machine is whole bending by 3mm-4mm pickling plate , without tube welding.

Electrophoretic Primer + Plastic Spray, Double Anti-Rust
The bottom coating of the overall sheet metal frame is treated with electrophoretic paint, which is widely used in automobile bottom coating, plastic spray after the electrophoretic paint. Anti-corrosive and anti-rust fully meet European and USA standards.

Rail 32*32 Solid Square Steel
The equipment is higher safety, reliability, and durability.

Leisuwash DG technical parameters with 3D drawing.

Item	Parameters / Process / Brand / Consumption	Item	Parameters / Process / Brand / Consumption
Equipment Dimensions	3600mm* 1450mm* 3100mm	High Pressure Nozzle	American SPRAY 316 hardened stainless steel
Rail Length	≥9000mm	Longitudinal Motor/Reducer	Import from Italy (Waterproof Ip67)
Total Power	28kw/35kw	Lifting flushing Motor/Reducer	Import from Italy (Waterproof Ip67)
Shipping Weight	≥3500kg	Lifting Rotary Motor/Reducer	Import from Italy (Waterproof Ip67)
Shipping Volume	18.5 CBM	Lifting Air-drying Motor/Reducer	Import from Italy (Waterproof Ip67)
Power Requirement	22kw	Wheel Brush Motor/Reducer	Import from Italy (Waterproof Ip67)
Control System PLC	Delta Industrial Control	Air-drying Aluminum Motor 4*4kw	Import from Italy (Waterproof Ip67)
Electrical Components	French Schneider	Wind Drum/Impeller	Galvanized sheet + electrophoresis + spray (outdoor plastic powder)
Frequency Conversion Drive System	German Siemens	Frame Sheet Metal Anti-rust Process	Electrophoresis + spray (outdoor plastic powder)
Water Pump	Pinfi/WUL(Import)	Frame Sheet Metal Manufacturing standard	3mm-4mm pickling plate whole bent without welding
Water Pump Motor	German Siemens 18.5kw/22kw	Contour-following Lifting and flushing Device	304 Stainless Steel
Drive Bearing	Japan NSK Bearings	Rails	32*32 Solid Square Steel
High-pressure Hose	American Parker	High Pressure Steering Control Valve	Import from USA
Engineering Towline	German IGUS (Import)	HMI	10 Inch Delta color touch screen
Towline Cable	German IGUS (Import)	Pneumatic Components	Taiwan AirTAC
Lifting Timing Belt	Italy MEGADYNE	Power Consumption/Water Consumption	0.8KwH-1.2KwH/Car, 120L-200L/Car
Sensor	German P+F /Italy MICRO DETECTORS	Chemical Consumption	RMB1.5 -RMB3/Car
